Subject: RE: Request for time on the agenda of the March 23 Town Board meeting

Hi, Mark.

Since we haven't had a chance to meet you during our previous visits to Silverton, we were wondering if we might schedule a short meeting with you the morning of Tuesday, March 24. We would like an opportunity to introduce ourselves as well as answer any follow-up questions you might have from the Town Board meeting on Monday night.

I would be joined by Remedial Project Managers Paula Schmittdiel and Liz Fagen, and Steve Wharton, Unit Chief in the Superfund Remedial Response Program.

We are free all morning, so please let me know if there is a time that would be most convenient for you.

Best regards,

Cynthia

Good Morning Cynthia,

Thanks for the email and I'll put you on the agenda for the March 23 meeting. Please forward any information that you would like to distribute to the Board in advance and we'll get it in their packets on March 20th. Thanks.

Mark Garcia

Subject: Request for time on the agenda of the March 23 Town Board meeting

Dear Mr. Garcia.

This email is a follow up to our phone conversation this afternoon. As we discussed, the EPA is requesting 20 minutes before the Town Board on March 23, 2015, to discuss potential soil contamination in Silverton. We have found in other communities in which ore smelting and other mining-related activities have taken place that soil contamination from lead, arsenic and other heavy metals often poses risks to human health. We would like to discuss information we have about potential contamination in Silverton as well as ways we might gather additional information. We don't have any materials to include in the board packet at this time.

Please feel free to contact me if you have any questions or would like additional information.

Best regards,

Cynthia Peterson
